

Joseph Kosma

Diagram illustrating the A7 chord structure across 64 different fret positions (0 to 63) on a guitar fretboard. Each diagram shows a 6-string guitar neck with frets 0 through 8 labeled on the left. The A7 chord is represented by a circle with an 'A' and a triangle, and the 7th fret is marked with an 'X' and a triangle. The diagrams show the positions of the four fingers (index, middle, ring, and pinky) for the A7 chord across the fretboard.
